truMe

Global Identity and Access Management System

Attendance Mgmt: Present Challenges

Dependence on Hardware

- Hardware needs deployment
- Hardware needs maintenance
- Hardware has limited capacity
- Hardware has downtime
- Hardware becomes obsolete
- Limited analytics capabilities

Sub-optimal Performance

- Unpleasant Entry Experience
- Finger biometrics is known to have glitches
- Hardware is often not integrated with HRMS
- Admin has no real-time visibility on entry/exit of employees

Cost

- Legacy systems have upfront hardware & deployment cost
- Maintenance Cost
- Replacement Cost every three years

The truMe Advantage

Technology & Efficiency

- Unlimited users and unlimited transactions
- Tamper proof location QR code - on tablet/ phone or print
- Complete real time visibility on employees' entry and exit
- Habitual defaulters can be monitored real-time
- Zero maintenance cost; All updates and upgrades are free
- No risk of the solution becoming obsolete
- Options available to:
  - Integrate with HRMS
  - Integrate with truMe Access Control
  - Add modules such as VMS, Meeting Room Mgmt, Vehicle Access Mgmt etc. on the same platform

Convenience

- Proprietor/ Partners/Admin Head get real-time reports on their handheld phone
- Power of analytics is available to the Admin real-time
- In-built Emergency Response System

Cost

- Opex model - per user per month basis
- No other explicit or implicit cost

truMe: Robust, Secure, Versatile

Security Features

- AES 256 bit encryption and data on AWS cloud behind a firewall
- End to end encryption ensures that data between truMe app and server always travels in encrypted form
- truMe identity and doc, if any on user's phone are also encrypted and cannot be transferred to any other application/ device
- truMe identity and the supporting doc, if any on truMe platform are stored on separate servers on the cloud
- The data remains with the organization; Mobico has no access to it

Versatility

- Real-time visibility on employees' movement & throughput, enabling quick and informed decision-making process
- Remote offices can be easily managed from Head Office
- Emergency Response System could address various real-time communication needs
- Option to upgrade to Access Control for the visitors, vendors and employees on the same platform
