

truMe
for
e-KYC

Why truMe

- Easy and quick e-KYC within seconds
 - No paperwork
 - Instant detection of forgery in Aadhaar card/ number
 - Staff hired in remote locations don't have to travel for eKYC
 - Detailed e-KYC status reports
 - Integrates with existing system for sharing e-KYC details
 - Integrates with Access Gates
- 

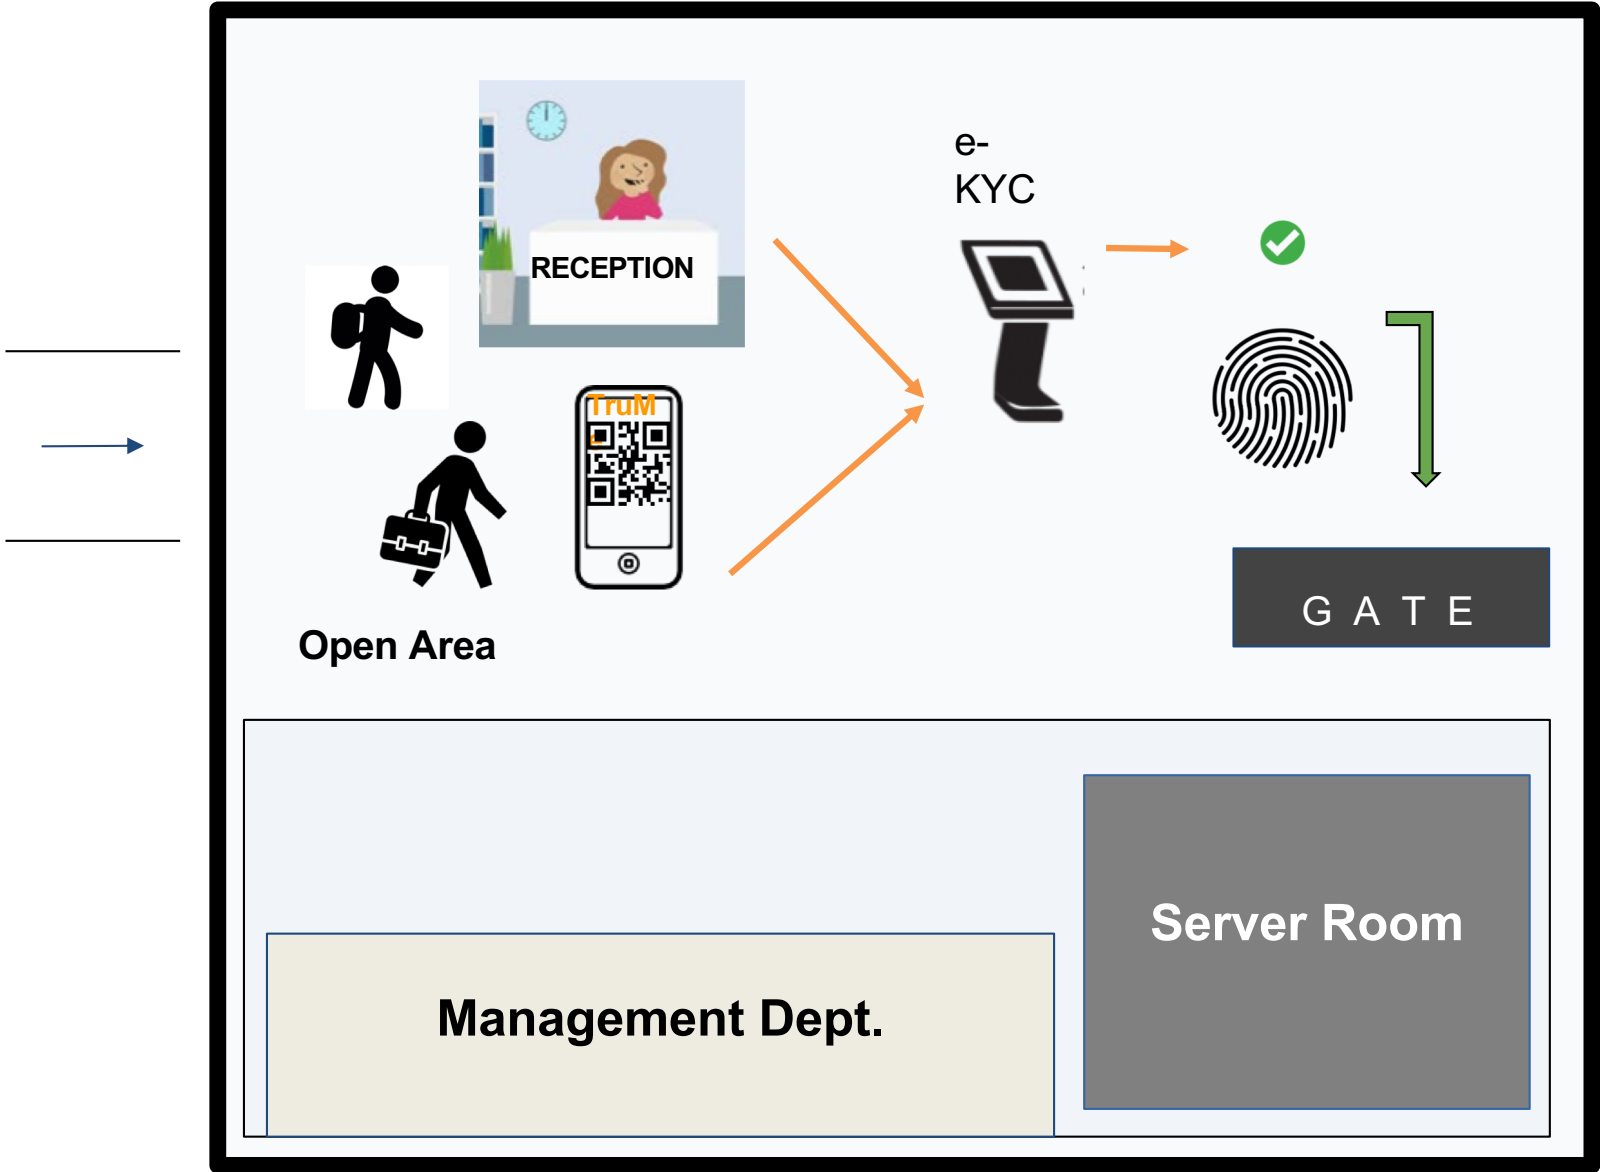

Use Cases

- e-KYC of existing staff in one go through bulk upload process
 - e-KYC of new Joinees
 - Onboarding of Temp staff
 - Employees and Temp Staff can also verify themselves against the generated e-KYC requests as per their convenience using self service kiosk
 - Manpower providers can supply “Aadhaar pre-verified” staff to client organizations
- 

Deployment Strategy

- On Premise or Cloud Based implementation
 - Centralized server for multiple locations for effective controlling and reporting
 - Choice of kiosk based, desktop based or App based solution
 - Network Requirement : Internet Connectivity
 - Easy integration with existing access gates
 - Deployment Time : 1-2 working days
- 

e-KYC Process
