Global Identity and Access Management System

truMe for Wellness Centres

truMe: An Introduction

truMe is an IoT based Identity & Access Management Platform. It's an elegant and cost-effective solution to the various access related questions. truMe leverages a number of technologies to create a product that is extremely easy to use both for the establishments and the individual users. Unlike the legacy Access Management Systems, which are standalone and are completely dependent on hardware, truMe is a state-of-the-art platform, which ensures great flexibility to write access rules, gives real-time visibility to access events and has in-built reporting & data analytics.

truMe: Value Proposition

State-of-the-art Solution

- Complete visibility of multiple locations from one place
- Full visibility & control on time usage by each customer helps enforce Agreement in terms of days & time - realtime and without friction
- Full visibility on employees' time & attendance
- Particularly useful in enforcing Agreement in case of unconventional usage - one hour, one day, number of days in a week/ month, access to more than one centre, access to centres in one city/ many cities etc.
- Auto-generated customized reports to Admin
- Block unwanted elements to all / specific location/s
- Zoning and dynamic Access Control - write/ modify access rules real-time
- Analytics facilitates differential pricing; differential access regime
- Lends itself well to integration with Building Management System
- In-built Emergency Response system

Compelling Cost-efficiency

- No/ very low staff requirement to manage access control
- No NFC cards/ biometric system required for employees/ customers
- Integration with BMS helps save on energy consumption
- Low maintenance

truMe: How it Works

- The Wellness Centre Chain adopts truMe platform
- An Admin Module and a number of Reception Modules for each centre are set-up with login credentials
- Client decides the nature and periodicity of reports
- Each employee and customer downloads truMe App. If the Wellness Centre has its own App, truMe integrates with that App
- Customers receive their digital Access Pass on the App, basis the plan subscribed to & payment made
- At the time of entry/ exit, the authorized customer scans her face or the location QR code on a tablet to open the door. truMe records the time of entry, exit and occupancy of each customer
- All employees also scan the QR code while entering and exiting the centre. truMe integrates with Client's HRIS to push periodic time & Attendance Reports of employees

truMe: The People

The Team

- Pramod N Uniyal – Background in internal security, 23 years of experience of creating and leading organizations, IIMA alumnus
- Babu Dayal - Serial entrepreneur, 24 years of experience in technology space in US, Japan & India
- Lalit Mehta – Serial entrepreneur, 23 years of experience in technology and finance, IIMA alumnus

The Company

Mobico Comodo Pvt. Ltd. is a technology product company. We are an ISO 27001:2013 and ISO 9001:2015 certified company. **Mobico owns the patent on truMe platform** under section 11 A (3) of the Patents (Amendment) Act 2005.
